

The Twilight Zone: Book 1: Shades of Night, Falling (Twilight Zone (Harvest Moon))

Geiststadt, New York has always been considered a strange place, beginning with the mysterious disappearance of the original Dutch settlers in the 1650s. Centuries later, Thomas Noir-the thirteenth son of a thirteenth son-seeks power in all forms, whether it be physical, financial? or magical. His quest to attain it will not only cause deadly friction between two rival families, but will also lead to a bitter struggle for dominance in that middle ground between light and shadow, between science and superstition, called the Twilight Zone.
