

## Seafoam

Jeremy, an infamous foot fetishist doomed to the quirkiest 12-step group ever, falls off the wagon spectacularly when he meets Beverly. She is a beneather, one of an alien species living alongside us after rising from the depths of the ocean. She is perfect for Jeremy. Smart. Beautiful. Great feet. But does Beverly's reciprocation smack of a sinister and slimy secret? Will Jeremy's probation officer revoke his freedom before he meets a bitter, sweaty end? And more importantly, did someone remember to bring donuts and coffee to the 12-step group? In this short tale of aliens, foot fetishism and life choices gone horribly awry, Mark Henry returns to his roots, stirring up comedy and horror, muddling in a little sex and serving it up ice cold.
